The TruSpeed Sxb speed measurement and mapping laser, now with iOS and Android compatible Bluetooth, syncs with a smartphone app to capture and store a picture of the vehicle.

LTI's LaserSoft SpeedCapture App collects the time, speed and distance data as well as the option to input vehicle and violation information. It embeds all this data within the photo and can either be saved to your camera roll for texting and emailing or the whole data log can be downloaded onto a PC.

The TruSpeed Sxb laser also measures distance and the degree of inclination for crash scene mapping.

The TruSpeed Sxb with Bluetooth bracket packages come with everything needed to attach a smartphone or iPad to the laser.
